

Assignment: AI Music Composer - Figma Prototype Design

Objective:

Design a Figma prototype for an AI Music Composer website that allows users to input emotions and generate personalized music playlists. The prototype includes eight key pages.

Steps Completed:

1. Homepage

- Created an engaging hero section with a tagline: "Music That Understands You."
- Added a call-to-action (CTA) button: "Get Started."
- Designed a minimalist navigation bar with menu items.
- Implemented a background gradient.

2. Signup Page

- Added input field for email.
- Integrated social login options (Google, Facebook, Apple ID).
- Applied a clean UI with simple form validation messages.

3. Blog Page

- Listed AI music-related articles.
- Included a latest and category filters.
- Featured highlighted blog posts.
- Designed image thumbnails with short descriptions.

4. Social Proof - Reviews Page

- Displayed user-generated reviews with star ratings.
- Added testimonials with profile pictures and usernames.
- Created an "Add Your Review" button with a submission form.

5. Social Proof - FAQ Page

- Compiled commonly asked questions about the AI Music Composer.
- Used expandable accordion-style FAQs for a clean look.
- Provided a contact support link for further assistance.

6. Pricing Page

- Designed a Free vs. Premium plan comparison.

- Included a feature breakdown (e.g., playlist customization, offline mode, etc.).
- Added a "Choose Plan" button for easy selection.
- Displayed secure payment options.

7. Subscribe Page

- Created a newsletter subscription form.
- Added a simple email input field with a submit button.

8. Contact Us Page

- Designed a contact form (Name, Email, Message).
- Integrated social media icons for alternative communication.
